

## SALT RESISTANT GREASE

**Art. No. 893.843100 - 100g**

Synthetic high performance lubricant.

- Grease specially designed to lubricate parts and components that are immersed or in contact with sea water
- Decrease friction and wearing of elements under high stress
- Excellent stability at work
- Protects efficiently against corrosion caused by sea salt
- Excellent resistance against oxidation and UV rays
- Offers long term protection
- Anti-wearing properties and able to sustain extreme pressures
- Insoluble in water, including sea water
- Adheres perfectly to metal surfaces and provides perfect waterproofing
- Temperature range: - 30 °C to + 180 °C

**Areas of application :**

Lubrication and protection of metallic surfaces in water environments.

Surfaces include: bearings, cogwheels, bow thrusters, rudder pins, cables and chains. Can also be used for maintenance and repairs of boats.

## BOAT WAX

**Art. No. 893.839 - 500ml**

Clean, polish and wax in only one simple application

- Give back a shiny look to all colours
- Protects and avoids discoloration of surfaces
- Longer life expectancy than traditional waxes
- Gives a smooth surface and eliminates micro-scratches
- Protects against dust and grease
- Water-repellent

**Areas of application:**

Easy and fast application on painted or non-painted polyester surfaces.

Surfaces include: hulls, decks, waterproof trunk boards, jet-ski fairings, etc.

## WATERPROOFING SYSTEM

**Art. No. 893.836 - 475ml**

Innovative, highly effective substance that protects and revives colours and fabrics

- Optimal long-term protection against ageing
- Avoids rotting of cloth and formation of mould
- Protects against water, salt water and outside chemical aggressions
- Waterproofs and protects against U/V light
- Goes deeply into the cloth and protects the colours against discoloration
- Revives colours (including white)

**Areas of application:**

For all textiles. Spray hoods and bimini tops.

Tents, awnings and similar clothing (e.g. sailing jackets etc.).

## ACRYLIC GLASS CLEANER

**Art. No. 893.834 - 500ml**

Fast and efficient cleaning of window surfaces

- Dissolves any pollution and dirt deposits
- Dissolves insects residus and bird droppings
- Eliminates grease and oil stains
- No chemical aggression on any surfaces
- Does not scratch and does not make surfaces become opaque
- Does not harm gaskets
- Eliminates small scratches
- Rapid, economical, with a shiny effect guaranteed
- Avoid use under direct sun

**Areas of application:**

Windows and transparent plastic surfaces, polycarbonate or glass. Can be used inside or outside. Also works on mirrors and lamps.

## BATTERY CONNECTORS FOR MARINA APPLICATIONS

**Art. No. 510.30 (negative)**  
**Art. No. 510.31 (positive)**

- Heavy duty brass connectors with Tin (Anti corrosion treatment for metal) plated steel fasteners
- Converts battery post to stud connector
- Permits quick disconnection from battery
- Eliminates current drain during storage
- Meets U.S.C.G. (United States Coast Guard) regulations
- 5 pieces/bag

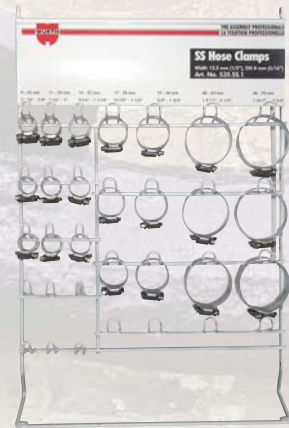

## STAINLESS STEEL HOSE CLAMPS

**Prefix 535.SS**

- Made from Stainless Steel (316)
- 1/2" High Nickel Stainless Steel band and housing
- 5/16" High Nickel Stainless Steel hex head screw
- Suitable for automotive, marina, metal, agricultural applications and for the food industry
- High corrosion resistance in aggressive environments
- Ageing and acid resistant
- Simple screw tightening system
- Available in following sizes:  
#6-8-10-12-16-20-28-32-36-40-48-52

## STAINLESS STEEL HOSE CLAMP ASSTMT.

**Art.No. 535.SS.1**

Contents:  
With 70 hose clamps, 10 pieces of each of the following sizes: #36, #32, #20, #16, #10, #8, #6.  
Stands free or mounts on walls. Will hold from 70 to approximately 1755 hose clamps.
